# Important Notes

- 1) The below data do **not** represent a forecast for school intake.
- 2) The table below shows the number of children living in the catchment area for each listed school who are due to start school in the next four years.
- 3) The information below is a snapshot as of October 2022. The number of children living in the catchment area for a school will change as families move into and out of the area.
- 4) The data provided is based on registered address.
- 5) Some schools have shared or overlapping catchment areas. The data below shows all of the children who would be considered in-catchment for that particular school, including those living in shared areas. As a result, there will be some double counting. To see a total of the number of children living in an Education District please refer to the forecast sheet for that area.
- 6) Schools that do not use a catchment area as one of their main admission criteria are not included in the data below but are shown in a separate list at the end of this document. This mainly affects schools with a faith association who use criteria such as baptism or attendance at a particular church. Parents are advised to refer to the [Information for Parents Booklet](#) for a full list of schools and information on how to apply for a school place.
- 7) Many families choose to access education outside of their designated catchment area. Therefore, these figures do not demonstrate the anticipated demand or represent a forecast for the schools listed. Schools may have many more children living in their catchment area than places available, but in these instances, there is often a high number of families in that area that choose to access provision within a school without a catchment area, such as a local faith school, or in a neighbouring school with a lower number living in catchment.
